

Kaplan and Levitt Psychologists is focused on providing compassionate and individualised treatment services. Located on Main Street West in Hamilton, Ontario, our multidisciplinary practice is comprised of rehabilitation and clinical psychologists, as well as neuropsychologists treating a wide variety of concerns, including depression and grief, anxiety, chronic pain, brain injury, alcohol and substance use, and assisting individuals in returning to work, school, and daily functions following a traumatic insurance. Our clinic also provides psychological legal assessments, and has expertise working with Extended Healthcare Benefits, Automobile Insurance, and Workplace Safety Insurance Boards.

We are currently looking to hire permanent, fulltime Psychologists to join our team and to conduct clinical assessment and treatment services. It is anticipated that the work week will be at least 30-hours per week, and overtime may be required to accommodate client needs and coordination with other team members. The Psychologist will receive an hourly wage in the range of CAD\$38.00 to CAD\$66.95 per hour, depending on their level of experience. The Psychologist will be working from our office located at 1612 Main Street West, Hamilton, Ontario, L8S 1G1.

Specific responsibilities of the position will include:

- Conducting clinical screenings and psychological assessments;
- Providing psychological treatment in a manner consistent with standards of professional practice;
- Participating in the supervision of all assessment and therapy cases on a regular basis;
- Examining and assessing client behaviour to diagnose disorders;
- Identifying, on an immediate basis, any problematic situations which may require more urgent attention;
- Applying psychological theory and principles regarding behaviour and mental processes;
- Reviewing literature;
- Completing required written documentation in an appropriate and timely manner;
- Providing required patient contact information for record keeping and billing purposes on the day of the service delivery;
- Participating in continuing education and skill development, including participation in weekly clinician group meetings; and
- Following our company's billing policies.

In order to fulfill the requirements of the position, the following skills and experience are required:

- Earned a doctoral degree in Psychology;
- Registered (or eligible) with the College of Psychologists of Ontario;
- Competent in clinical counseling and/or rehabilitation;
- Proficient in diagnostic formulation, treatment planning and report writing; and
- Expert in the provision of evidence-based treatment modalities.

Kaplan and Levitt Psychologists is registered at 1612 Main Street West, Hamilton, Ontario, L8S 1G1.

Interested candidates, please submit a cover letter, resume, as well as two example copies of de-identified assessment reports to: faith@kaplanandlevitt.com
