

Annapolis Valley Psychological Services (AVPS) is seeking a masters level registered clinical psychologist from an accredited institution. Individuals with a Psy.D. are also encouraged to apply. AVPS is a growing practice that would like to expand its adult clientele to also include children, adolescents, and couples. As such, we need a psychologist to provide evidence-based assessment and psychotherapy services for existing adult clientele and ideally these new populations as well. This position is part-time to full-time based on client demand, especially if the applicant is willing to work flexible hours (i.e., days, and some evenings or weekends). We are conveniently located in downtown Kentville and provide a supportive and friendly work environment with opportunities to grow professionally. Administrative staff is provided on a part-time basis with the option to expand to full-time in the future. All applicants must possess training in CBT and be able to demonstrate effective case management skills. The successful applicant must be ethically-minded, client focused, caring, motivated, and keen to embrace opportunities to learn and grow in our professionally rewarding work setting. He or she must also be willing to provide assessments and therapy to adult clients associated with Canadian Forces, RCMP, VAC, and Section B Motor Vehicle Accident clients from various insurance companies. Excellent oral and written communication skills and the ability to practice both autonomously and collaboratively are required. To apply for this position, please email AVPS a copy of your CV, a handwritten cover letter, and be prepared to provide three professional references, and one personal reference upon later request.
