Position Summary

The Ontario Shores Centre for Mental Health Sciences seeks a XX registered psychologist to provide psychological services in the Adolescent Outpatient Program. You will work with an interprofessional team to provide evidence-based clinical assessments (psychoeducation and diagnostic clarification) and treatment (short-term, evidence based stabilization) to outpatient adolescents. Position responsibilities may include providing consultation to interprofessional team members, supervising students, as well as initiating research projects (e.g., quality improvement and program evaluation initiatives).

The Adolescent Outpatient Service receives referrals for youth from across the Central East Region for patients who require specialized tertiary care within the community. Adolescent Services has an interprofessional team of healthcare professionals that includes psychiatrists, nurses, nurse practitioners, child and youth workers, social workers, psychologists, occupational therapists and other allied health professionals. Together, they provide ongoing assessment, treatment and life skills training for youth and adolescents.

Qualifications Required and Preferred

The successful candidate will have a Doctoral level degree in psychology, preferably with 3 years clinical and/or research experience in the field of severe and persistent mental illness, combined with being registered with the College of Psychologists of Ontario. (Only candidates registered with the College of Psychologists of Ontario will be considered as on-site supervision is not possible.)

The successful candidate will have demonstrated skills to work with an interprofessional team, particularly those in transition. Expertise in developing assessment protocols for psycho-educational testing and diagnostic clarification of adolescents with a serious mental illness is important. Experience providing, teaching and supervising short-term evidence-based psychotherapies and contributing to evidence-based clinical management of outpatient adolescents is key. A demonstrated interest and aptitude for academic activities, including teaching graduate students and the ability to conduct independent research relevant to the

Adolescent Program are definite assets. Excellent oral and written communication skills, interpersonal skills, and the ability to work effectively in a dynamic team environment, are essential.
