

Thunder Bay Regional Health Sciences Centre

Full Time - Psychologist/ Psychological Associate

Reporting to the Manager Adult Mental Health Services, the Psychologist/Psychological Associate will be responsible for providing a full scope of psychological services to clients with acute and chronic psychiatric illness within an acute mental health inpatient unit. The Psychologist/Psychological Associate will conduct and/or supervise psychological assessments and provide individual and group psychological treatment within an adult population. Treatment focus will be brief models of therapy. The incumbent will also provide consultation to other members of the team as required and contribute to the Thunder Bay Regional Health Sciences

Centre's commitment to research and academics including providing clinical supervision to learners.

Candidates must be eligible for registration with the College of Psychologists of Ontario with authorized practice in Clinical Psychology with Adults. Preference would be given to those authorized to practice in additional areas.

Serving Northwestern Ontario

Serving Northwestern Ontario: Thunder Bay Regional Health Sciences Centre serves Northwestern Ontario from east of White River to the Manitoba border in the west and from Hudson Bay in the north to the United States border in the south. Thunder Bay Regional Health Sciences Centre is the only acute care hospital in the City of Thunder Bay and operates one of the busiest emergency departments in Canada and the only one in the City. Ours is also the only tertiary hospital in Northwestern Ontario and a regional referral centre for 10 smaller regional acute care hospitals. We are a unique region with unique gaps in health care.

Academics & Learning

Learners play an important role at our Hospital. We are the teaching hospital of choice for learners from the Northern Ontario School of Medicine, Lakehead University, Confederation College, and other partnering academic institutions. We are an academic health sciences centre, committed to teaching the next generation of health care providers. Our new Simulation Centre allows practitioners to practice and expand their knowledge and skills within a safe and controlled environment.

Living in Thunder Bay

In addition to working at a worldclass academic health care facility, you also have the city of Thunder Bay and surrounding area at your back door. We are known for our access to the outdoors: hiking, fishing, camping, snowshoeing, skiing; we have it all! For more information, please visit:

Research Will Transform the Future of Health Care

The Thunder Bay Regional Health Research Institute is distinct. Until very recently, health research facilities of this calibre would be housed in a major metropolitan centre. Indeed, our scientists found that Thunder Bay's size and status as a regional hub has tremendous advantages, particularly access to collaborators. We are able to focus our research to address the health care challenges unique to our region.
