

**Dr. Barbera C. Psych & Associates**  
**Location: Hamilton, ON (and online)**

### **Employment opportunities at Dr. Barbera C. Psych & Associates:**

Would you like to work in a supportive, relatively relaxed, flexible, and positive work environment that emphasizes self-care, ongoing professional development and professional support?

Dr. Barbera C. Psych & Associates is a private practice setting conveniently located on a quiet street near hwy 403 and Main St in Hamilton with ample free parking at ground level.

We offer a supportive and professional environment in a nature-inspired office setting. We pride ourselves on prioritizing quality of services over quantity of services as we support/encourage balanced work hours, positive collegial support, a non-pathologizing approach to well-being, and an ongoing passion for learning and continuing education.

Our practice sees individuals (both independently referred and WSIB referred) and couples for a wide variety of issues, with a particular focus in our clinic on trauma therapy and anxiety treatment. We also assist individuals with depression, OCD, relationship conflict, stress and addiction issues. There is also opportunity for paid mentorship/supervision opportunities.

Please visit [www.Findinnercalm.ca](http://www.Findinnercalm.ca) to see more about our practice.

We are currently seeking a clinical psychologist (adult license required, a license to work with adolescents and couples is an asset).

#### **Qualifications:**

- Doctoral level degree in psychology
- Currently registered with the College of Psychologists of Ontario as a clinical psychologist (with adults). A license to work with adolescents and/or couples is an asset
- Solid experience working with trauma, mood and anxiety disorders
- Excellent oral and written communication skills
- Excellent interpersonal skills and the ability to work in a supportive and collaborative team environment
- Experience with CBT is an asset, while an openness to utilize an eclectic therapeutic approach that recognizes the strengths of different models and the uniqueness of individuals is required. Training or supervision in therapeutic modalities such as ACT, advanced EMDR and IFS can be provided

#### **What we can offer you:**

- We offer above average remuneration.
- We offer flexible working hours (ranging from part-time to full-time hours).
- We offer a flexible work setting (in Hamilton or primarily online) with a very comfortable and quiet, conveniently located office environment.
- We offer administrative support that includes coordinating intakes, payments and electronic charting (including a chart template system that significantly reduces note writing time so you can focus more on the aspects of your work that you prefer).
- We typically have a wait list and could fill your schedule quickly if desired.
- We offer a client-centered work environment where you have the flexibility to utilize an eclectic approach to working with your clients rather than a “one-size fits all” or pre-determined therapeutic approach.
- There is ample opportunity for continuing education and/or training in modalities such as ACT, IFS (internal family systems), EFT and advanced EMDR (e.g., for complex trauma).
- We have a wonderful team of positive and professional psychologists, psych associates and psychotherapists.
- We have opportunity for balancing your role with paid mentoring/supervision to supplement your clinical schedule and we can provide formal training in clinical supervision to enhance your area of skill and professional practice.

Please feel free to pass this along to anyone in your circle of contacts who may be interested in this position.
