

# Recruiting Clinical Psychologist for SUMMIT Trial for Perinatal Depression and Anxiety

The Scaling Up Maternal Mental healthcare by Increasing access to Treatment (SUMMIT) trial was funded by PCORI to examine different models of scalable solutions that can increase access to treatment for women with perinatal depression and anxiety. We are currently looking for **Part-time Clinical Psychologist**. The ideal applicant for this position would be trained in Behavioural Activation Therapy. The Psychological Research Associate will report to Dr. Singla (PI) and work closely with clinical leads in Toronto and the US.

## QUALIFICATIONS

- Successful completion of a PhD degree in Clinical Psychology or Counselling Psychology
- Registered with College of Psychologists of Ontario (CPO)
- Expert in CBT and preferably Behavioural Activation
- Previous experience in supervising or co-supervising therapists
