Can't attend on that date? The "On-Demand" video is available 2 weeks after the live event.

This workshop will address critical topics, including the limitations of traditional risk assessments, the importance of collaboration and shared goals, alternatives to default hospitalization, and techniques for processing psychological distress. Emphasizing a responsive, client-focused approach, participants will gain practical tools to navigate suicidal crises with confidence, compassion, and skill. Additionally, the workshop will explore essential domains beyond client-facing strategies, including considerations for documentation and other practice-relevant processes.

Bespoke Mental Health Canada is approved by the Canadian Psychological Association to offer continuing education for psychologists. Bespoke Mental Health Canada maintains responsibility for the program.

Participants completing this workshop, live or on-demand, are eligible to receive 3 CE credits.
