

FROM TRAUMA TO MEANING:

TRAUMA-FOCUSED MANAGING CANCER AND LIVING MEANINGFULLY (CALM-TF)

Workshop Overview

This workshop will build skills in CALM-TF, a trauma-informed psychotherapy to support individuals living with advanced cancer, including at critical and potentially traumatic junctures in the disease trajectory.

Learning Objectives

- Understand the core principles and framework of CALM.
- Understand the rationale, theoretical foundations and clinical application of CALM-TF.
- Explain the CALM-TF process through videotaped sessions.
- Apply CALM-TF principles to clinical practice.
